## Job Title: Product Owner - Airport Products

### About Us:

Siddhan Intelligence is a leading software product company specializing in building innovative solutions for the aviation industry. Our mission is to revolutionize airport planning and management through cutting-edge SaaS-based solutions that enhance efficiency, safety, and profitability for airports worldwide.

### Job Summary:

We are seeking an experienced and dynamic Product Owner - Airport Products - to join our team. The ideal candidate will have a strong background in airport planning and airport revenue management, with a minimum of 6 to 10 years of relevant experience. As a Subject Matter Expert (SME) in managing airports, you will play a crucial role in developing and delivering our SaaS-based solutions for airport planning and management.

### Key Responsibilities:

- Define and prioritize the product roadmap for airport planning and management solutions.
- Collaborate with cross-functional teams, including engineering, design, and marketing, to deliver high-quality products.
- Gather and analyze customer feedback to inform product development and enhancements.
- Ensure alignment of product features with market needs and regulatory requirements.
- Lead the product lifecycle from concept to launch, ensuring timely delivery and adherence to budget.

# Siddhan Intelligence

*Innovate Your Journey*

- Act as the primary point of contact for all product-related inquiries and decisions.
- Conduct market research and competitive analysis to identify opportunities for product improvement and innovation.
- Provide training and support to internal teams and customers on product features and functionalities.

## Qualifications:

- Bachelor's degree in business, Engineering, Aviation Management, or a related field. A master's degree is a plus.
- 6 to 10 years of experience in airport planning, revenue management, or a related field.
- Proven experience in project management and product ownership.
- Strong understanding of airport operations, regulations, and industry best practices.
- Excellent communication, leadership, and interpersonal skills.
- Ability to work effectively in a fast-paced, dynamic environment.
- Proficiency in project management tools and software development methodologies (e.g., Agile, Scrum).

## Preferred Skills:

- Experience working in a software product company, particularly in the aviation industry.
- Knowledge of SaaS-based solutions and cloud technologies.
- Certification in Project Management (PMP, PMI-ACP) or Product Ownership (CSPO, PSPO) is a plus.

## Why Join Us:

- Opportunity to work with a passionate and innovative team.
- Competitive salary and benefits package.
