

Siddhan Intelligence

Innovate Your Journey

Job Title: Mobile App Developer

Location: Bangalore [On-site]

Experience: 2 - 4 years

Employment Type: Full-time

Job Summary:

We are seeking a highly skilled Mobile App Developer with strong expertise in Flutter (Dart) to develop scalable, high-performance mobile applications. You will be responsible for designing and building pixel-perfect UIs, implementing robust state management, and collaborating with cross-functional team.

You will lead feature development and ensure timely delivery of quality applications.

Key Responsibilities:

Flutter Development

- Build and maintain scalable mobile apps using Flutter and Dart.
- Translate UI/UX designs (Figma/AdobeXD) into responsive, pixel-perfect UIs.
- Handle widget trees, custom widgets, animations, and transitions.
- Integrate REST APIs with proper error handling and JSON parsing.
- Implement state management using BLoC (Riverpod/GetX/MobX is a plus).
- Set up push notifications using FCM.
- Write unit tests.

General Responsibilities

- Collaborate closely with UI/UX designers, product managers, and backend developers.
- Participate in code reviews, write clean and maintainable code.
- Manage Git version control with proper branching and pull request flows.
- Use Postman for API testing and debugging.

Siddhan Intelligence

Innovate Your Journey

Must-Have Skills:

Dart + Flutter

- Strong understanding of OOP and Dart language features (async/await, streams, null safety).
- Proficiency in state management (BLoC).
- Experience in complex widget trees, animations, routing, and theming.

Mobile Development Fundamentals

- REST API integration with error handling.
- Secure authentication methods.
- Push notifications.
- Writing unit tests.

Collaboration Tools

- Proficient with Git (branching, merging, pull requests)
- API Testing using Postman

Preferred Qualifications

- Bachelor's Engineering degree in computer science, IT, or related field
- Experience with CI/CD tools, app signing, and publishing (optional but desirable)
- Excellent problem-solving, communication, and team collaboration skills

What We Offer

- Opportunity to work on cutting-edge mobile applications
- Flexible working environment
- Career growth and mentorship opportunities
