

Job Title: UIUX Lead

Job Overview:

We are seeking a highly skilled UI/UX Lead to take ownership of our digital product design. The ideal candidate will have a strong design portfolio, leadership skills, and experience in designing intuitive, engaging user experiences.

Location - Chennai

Experience – 5 to 7 years

Responsibilities:

- Lead the end-to-end UI/UX design process for web and mobile applications
- Collaborate with product managers, developers, and stakeholders to define user experience strategy
- Conduct user research, usability testing, and analyze results to inform design decisions
- Create wireframes, mockups, prototypes, and high-fidelity visuals
- Guide and mentor junior designers and ensure consistent design practices
- Advocate for user-centric design within cross-functional teams

Requirements:

- Minimum 5 years of experience in UI/UX design roles
- Proficiency in tools like Figma, Adobe XD, Sketch, or similar
- Strong understanding of responsive and accessible design principles
- Excellent communication and leadership skills

- Ability to balance user needs with business objectives.

Why Join Us?

Join a dynamic and innovative team where you will play a pivotal role in delivering impactful projects and ensuring smooth and efficient release processes. This position offers the opportunity to work with cutting-edge technologies and make a tangible difference in the organization's success.
